

Environmental

CONSERVATION AMBASSADORS

Agricultural

LEADERSHIP ACADEMY

1 Agriculture

Learn about farming, ranching, and energy production in Ventura County.

2 Stewardship

From growing food, cattle, grazing to carbon farming, learn practices that are good for the land and us.

3 Conservation

See and hear first hand how the land has been protected and cared for from the time of the Chumash to the land stewards of today.

Careers in Ag 4

STEAM: Science - Tech - Energy - Agriculture - Math. We continue to evolve and move forward with new ways to ensure that we can feed the local community, the world, and produce energy in the most healthy and safest ways possible

Ambassadors 5

Your voice, your intention, and actions can ensure we can sustain preserve our agriculture and open space. Together we can be good stewards of energy production and natural resources for us today and tomorrow.

What you will learn

What is an agricultural and open space land trust?

1

You will lead your peers in conserving and protecting our working landscapes

2

How does ranching and farming help the land?

3

Where does your food and energy come from?

4
